### CARYVILLE COMMUNICATION.

It is with pleasure that we note the wonderful growth and prosperity to every branch of industry in Washington county; the farmer is made happy by the rise in the cotton market, the cattle raiser has the benefit of the rise in beef on the market, the truck farmer was never so successful, the poultry breeder cannot supply the demand for high priced fancy poultry, the hog and timber men along our rivers are commanding high prices for their labor, because lumber is much higher than at any time since the Confederate war; large mills have been erected at great cost in our county, with the most costly machinery, to cut our pines into lumber for the market of the world. The pioneer of Washington county living at ease in his old age from the small profits made in stock raising, looks with amazement at the scientific methods adopted by the present generation of his own Anglo-Saxon blood. In the year 1865, there were no schools of note in the county; today there is a public school well equipped in reach of every child in the county with its own house, and several private schools are dotted with lovely cottages amid the most picturesque scenery in the world, the pride of every citizen in the county. We can boast of several of our nice towns; our Chipley with its magnificent school building, with an up-to-date school, and its several grand church edifices with their towering spires, its well regulated mercantile system, and well conducted newspaper; then beautiful St. Andrews bay with its intellectual and business population extending for 15 miles from Diaz point to Parker, the home for the invalid and pleasure seeker; then we boast of Ft. Washington and its lovely and giant oaks, a mill town celebrated for its sociality, with a fine school and an enterprising population in every respect. And Vernon, our town of justice, stands on the banks of Holmes river, improving all the time, having an enterprising and prosperous people, with a kind, polite set of public officers, the servants of the people.

Washington county of fast coming to the front as one of the most important of all the counties in West Florida.
